

ABOUT US

- ◆ Virtus GmbH was founded 1977 in Hamburg, Germany, under new owner- and leadership by Rolf Klæke as of October 1991 and eventually relocated to Osten in Germany.
- ◆ In 2004 the office was expanded and a new warehouse was established.
- ◆ Today more than 25 employees provide services to our customers worldwide. We cover sourcing, sales and distribution, project-management and -implementation as well technical and repair services on a global scale.
- ◆ Our core business fields are engineering, project consultancy, storage, sourcing, and distribution of significant spare parts to various industries, ship yards, vessel owners, operators and ship suppliers as well as production of unique engineered parts.
- ◆ Other major activities involve delivery, installation, engineering, service and repair of waste water and vacuum sanitary systems including vacuum toilets, wet and dry waste treatment plants, pump and lifting units, HFO-booster, pre-heating, cooler and transfer units, fuel handling systems, stainless steel push-fit piping systems including channels and couppers as well as ballast water treatment systems.
